

The Center of Surgical Excellence complies with Florida price transparency requirements.

The Agency for Health Care Administration (AHCA) has developed websites prospective patients can use to learn more about quality and costs for health care in Florida.

These websites include Florida Health Finder and Florida health Price Finder. The AHCA price finder website is based on payment information for the entire state of Florida and does not provide a personalized estimate of charges.

You will need to provide a description of the medical service you are seeking or the CPT procedure code which can be obtained from your attending or referring physician. You will also need the name of your insurance and the type of insurance, such as PPO, HMO, Medicare, etc.

You will receive a monthly statement of account that shows charges, adjustments and payment. In compliance with Florida price transparency requirements, itemization includes descriptions of each service provided.

We are participating providers with several insurance companies.

We accept Medicare approved rates excluding co-pays.

Upon request if additional information is required please contact our billing department.
