Advance Directives

The Center respects and upholds the right of a patient to participate in their health care decisions and to make advance directives.

However, it is the policy of the Center that we do not honor advance directives.

If a patient has advance directives and brings them to the Center on the day of surgery they will be put in the patients chart and become part of their record.

Should it become necessary to transfer a patient to an acute care facility the advance directives will be sent with the patient.
